

Lower St. Croix Valley Fire Station Completed

Lake St. Croix Beach, MN – October 24, 2003 – In mid November fire fighters from the Lower St. Croix Valley Fire Protection District will be moving into their newly renovated and expanded fire station. This fire station project updates the existing station that serves seven communities along the St. Croix River, north of Afton, Minnesota. It includes an apparatus bay addition, support expansion, new offices, training room, storage, kitchen and EMS medical cleanup area. Existing office spaces and 3 apparatus bays were also remodeled. Collaborative Design Group provided architecture, engineering and interior design services for the project.

Collaborative Design Group, Inc. is a multidisciplinary architectural, structural engineering, interior design, and planning firm located in Minneapolis, Minn. The firm offers comprehensive design services to commercial, industrial, and institutional clients.
